Overall Length:

2.880 inches

Body Thickness:

0.250 inches

End Application:

Swm/hdr antenna cable guide and support bracket assembly

Link Style:

90 degrees offset

Body Construction:

Solid

Special Features:

Two holes 0.66 in. Diameter through r.75 both ends. One portion of link is 0.25 in. Thk, other portion is 0.44 in. Thk

Material:

Stainless steel

Material Specification:

Qq-s-766, cl 304, cond. A federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A52410
