End Application:

Los angeles class ssn (688)

Bore Type:

Splined and plain straight

Product Name:

Bellcrank, actuator

Shaft Securing Method:

Spline

Special Features:

Shaft connecting end is modified 10 spline. Spline minor dia. 3.8685 inches. Spline major dia. 4.4985 inches; rod connecting clevis end hole dia. 1.2500 inches

Material:

Nickel

Material Specification:

Qq-n-286 form 7 hf federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524p0
