Overall Length:

3.0600 inches

Body Width:

0.5000 inches

Body Thickness:

Between 0.2190 inches and 0.2290 inches

End Application:

Aircraft, thunderbolt ii, a-10; aircraft, f-16

Link Style:

Eye ends

Body Construction:

Solid

Criticality Code Justification:

Feat

Special Features:

Weapon system essential

Material:

Aluminum alloy

Material Specification:

Qq-a-200/3 federal specification single material response

Surface Treatment:

Paint

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524I0
