Overall Length:

452.000 inches

End Application:

Actuator syst, wsd: oliver perry class ffg

Core Material:

Steel, corrosion resisting

Core Diameter:

0.625 inches

Casing Material:

Steel, corrosion resisting

Casing Outside Diameter:

0.980 inches

Special Features:

Core rotation direction is bi-directional, item aka: flexible shaft assembly, nha: uniflex rog sys

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T246-e
