First End Style:

Slotted

End Similarity:

Not identical

Second End Style:

External threaded

Overall Length:

37.560 inches

End Application:

Nha 5d3-03791 stowage drum assembly, used on seawolf class ssn

First End Slot Width:

Between 0.188 inches and 0.190 inches

First End Diameter:

Between 0.8220 inches and 0.8230 inches

First End Slot Depth:

1.1200 inches

Second End Diameter:

0.8120 inches

Second End External Thread Length:

1.1200 inches

Material:

Copper alloy

Material Specification:

Astm b165, monel 400 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
