Overall Length:

1.250 inches

Overall Width:

Between 9.730 inches and 9.770 inches

Overall Thickness:

Between 6.480 inches and 6.520 inches

End Application:

Panel assembly, linear hydraulic actuator model la196al

Model For Which Designed:

Flo-tork model la196al

Product Name:

Mounting flange

Special Features:

Mounted to cylinder by (4) 0.875 "-9unc-3a x 2.250" long hex head cap screw

Material:

Steel

Specification Data:

Ofwc2-astm a564 alloy s17400 type 630 condition h1150 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A525y0
