Overall Length:

5.760 inches

Body Width:

1.760 inches

Body Thickness:

2.000 inches

End Application:

Logistic escape trunk lower hatch hinge; nssn class submarine.

Link Style:

Clevis ends

Body Construction:

Solid

Special Features:

Link has 4 holes (2each side, each end) .751 maximum dia. With a distance b/t c/l of 4.000.

Material:

Nickel alloy

Material Specification:

Qq-n-286, form-2 national specification all material responses

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
