Overall Width:

31.000 inches

End Application:

Nssn class submarine

Compressed Length:

84.820 inches

Extended Length:

111.140 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Single acting single cylinder

Product Name:

Cylinder assembly

Special Features:

Nssn class submarine retractable bow plane extend/retract cylinder assembly

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A34200
