Overall Height:

3.535 inches

End Application:

Internal countermeasure launcher assembly for los angeles class ssn (688)

Cam Width:

1.750 inches

Specific Use:

Internal countermeasure launcher 2, secondary

Camlength:

8.267 inches

Features Provided:

Splined

Thickness:

1.750 inches

Product Name:

Cam, interlock

Special Features:

ACUR-RE-NTF-EDER

Material:

Copper alloy

Material Specification:

Qq-c-390 alloy 863 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A50800
