First End Style:

Circular grooved and externally threaded

First End Groove Width:

0.1600 inches

First End Groove Diameter:

0.8100 inches

End Similarity:

Not identical

Second End Style:

Internal threaded

Overall Length:

6.180 inches

End Application:

Interlock assembly, cradle

First End Diameter:

1.3270 inches

Second End Diameter:

0.8800 inches

Step Quantity:

6

Product Name:

Shaft cam

Material:

Copper alloy

Material Specification:

Astm-b150, aly-c63200 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
