First End Style:

Internal threaded

End Similarity:

Not identical

Overall Length:

5.610 inches

End Application:

Plunger assembly (seawolf class ssn)

First End Diameter:

Between 0.4960 inches and 0.4980 inches

Step Quantity:

6

Product Name:

Plunger

Material:

Copper alloy

Material Specification:

Astm-b150, aly-c6300 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23200
