**First End Style:**

Internal threaded

**End Similarity:**

Not identical

**Overall Length:**

5.610 inches

**End Application:**

Plunger assembly (seawolf class ssn)

**First End Diameter:**

Between 0.4960 inches and 0.4980 inches

**Step Quantity:**

6

**Product Name:**

Plunger

**Material:**

Copper alloy

**Material Specification:**

Astm-b150, aly-c6300 assn standard single material response

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A23200
