Overall Height:

1.250 inches

End Application:

Tt shell assembly used on wasp class lhd

Cam Width:

2.250 inches

Specific Use:

Steering & stern dive gear normal follow-up and transmitter drive

Camlength:

2.500 inches

Thickness:

0.375 inches

Product Name:

Cam, switch

Special Features:

Ztwo 20 degree slant and 30 degree beveled guide surfaces with surface finish of 63.0 on outside web of channel shaped cam; fou (4) no 10-24nc-3b x 0.375 deep threaded mounting holes, two on each flange 1.500 inch apart equally spaced

Material:

Stainless steel

Material Specification:

Qq-s-766, condition: annealed, heat resisting federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiiq:

A50800
