Setscrew Hole Quantity:

2

Attachment Method:

Square holes

Internal Thread Length:

1.380 inches

Bore Diameter:

Between 1.550 inches and 1.750 inches

Shaft End Design:

Female

Shaft End Configuration:

Round

End Application:

Los angeles class ssn (688)

End Type:

Integral coupling

Screw Drive Type:

Square socket

Special Features:

Dwg name, weapons handling hoist platform and locks assembly; matl cage/pn, 81346/astm-8150

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A530j0
