First End Style:

Internal threaded

End Similarity:

Identical

Overall Length:

1422.0 millimeters

End Application:

Mine clearing roller system

First End Diameter:

76.0 millimeters

Second End Diameter:

76.0 millimeters

Product Name:

Shaft, front suspension

Special Features:

O/a shaft dia. 90.0 millimeters; threads m76x4-6 (iso) both ends

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
