**First End Style:**

Internal threaded

**End Similarity:**

Identical

**Overall Length:**

1422.0 millimeters

**End Application:**

Mine clearing roller system

**First End Diameter:**

76.0 millimeters

**Step Quantity:**

4

**Largest Step Diameter:**

90.0 millimeters

**Product Name:**

Shaft, rear suspension

**Special Features:**

Shaft o/a dia. 120.0 millimeters; threads m76x4-6 (iso) both ends

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A23200
