First End Style:

Slotted and internally threaded

End Similarity:

Identical

Overall Length:

1615.0 millimeters

End Application:

Mine clearing roller system

First End Slot Width:

32.0 millimeters

First End Diameter:

123.5 millimeters

Product Name:

Shaft, roller bank

Special Features:

4 threads m12x1.75-6 (iso)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23200
