Hydraulic Accumulator Piston Rod - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-500-8024>

Overall Length:

43.560 inches

Overall Diameter:

Between 3.245 inches and 3.247 inches

End Application:

Accumulator assembly; los angles ssn 688 submarine.

Product Name:

Tailrod, piston

Special Features:

Piston rod is hollow with a 1.250 inch inside diameter. Both ends have a cross section through hole and rod attaches to the accumulator piston.

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
