Overall Length:

26.000 inches

End Application:

Close in weapons system (ciws-phalanx); ordalt 16836, mk7 mod1, module, radar assembly

Specific Use:

Radar assembly

Product Name:

Ballast

Special Features:

Mounted by a mounting bracket which is installed onto the ballast or counterbalance weight, p/n 7287199-001

Material:

Aluminum alloy

Material Specification:

Qq-a-250/11, 6061-t651 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A525e0
