Overall Length:

4.500 inches

Body Thickness:

0.812 inches

End Application:

Interlock assembly mechanism right hand

Link Style:

Straight

Body Construction:

Solid

Product Name:

Tie-bar, right hand

Special Features:

Link is in the shape of a "t" with extension off one side 1.000 x 1.250, with hole drilled: 0.312-18unc-3b, 2.875 from long end.

Material:

Nickel alloy

Material Specification:

Qq-n-281d, class-a, form-1, cond-cd federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
