Outside Diameter:

3.150 inches

Thickness:

1.319 inches

Bore Diameter:

1.9690 inches

End Application:

Radar transmit set

Securing Hole Quantity:

12

Securing Hole Type And Location:

Threaded all holes

Product Name:

Assembly, locking

Special Features:

Internal-metric series locking assembly. W/double tapered thrust rings with self releasing tapers, not self centering, precentering hub section is usually required. Units most commonly used on applications in general eng. To transmit high torques and axial loads utilizing larger machine tolerances. Following installation instructions is important.

Material:

Steel

Material:

Steel

Style Designator:

Plain round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
