Body Diameter:

0.625 inches

End Application:

Power supply, sub assembly of 4724-1, boarding ladder for f18

End Attachment Style:

Eye both ends

Link Style:

Tubular shank

Body Construction:

Tubular

Product Name:

Rod, attach

Special Features:

Center to center mounting distance is 11.600 inch with adjustment range =0.250 and -0.250. End attachment provided with 0.375-32 unjf-3b threads. weight of part 0.250 pound and calculated weight 0.190 pound. End attachment p/n 4725-1 and 4725-1I, tube assembly p/n 4724-1101, and tube p/n 4724-2 from cage: 34742

Material:

Aluminum alloy

Material Specification:

Ww-t-700/3; 2024-t62 federal standard all material responses

Surface Treatment:

Enamel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524I0
