Overall Length:

35.812 inches

Body Width:

1.500 inches

Body Thickness:

0.375 inches

End Application:

36" wide water tight quick acting (wtqa) door

Link Style:

Straight

Body Construction:

Solid

End Attachment Style:

B1

End Attachment Hole Diameter:

0.9355 inches both ends and 0.9365 inches both ends

End Attachment Length:

35.812 inches both ends

End Attachment Width:

0.375 inches both ends

Product Name:

Connecting rod top

Special Features:

C/c distance 34.125 inch for 0.936 diameter holes

Material:

Stainless steel

Material Specification:

Astm a108, grade 1018 national specification single material response

Surface Treatment:

Zinc

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
