Linear Actuating Cylinder Piston Rod - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-503-6332>

Overall Length:

31.500 inches

End Application:

HYDR-AU-LIC-CYLI

Operation Method:

Hydraulic cylinder

End Connection Type:

Threaded

Product Name:

Rod, piston

Special Features:

Piston rod has yield strength of 90,000 psi, case hardened, hard chrome plated, and polished to 8-14 micro inches. Provided with iron piston rings

Material:

Steel

Thread Size And Series/type Designator:

1.375-12 unf

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A525x0
