Body Material:

Steel

End Application:

Nsn 1730-00-773-8591 which is a handling lift trailer for t-38 and f-5 aircraft

Compressed Length:

18.000 inches

Extended Length:

40.000 inches

Design Characteristics:

Double acting twin cylinder

Product Name:

Cylinder assembly

Special Features:

Nha p/n is 290-400-10; this cylinder assembly is used on p/n 290-100-10; t.O. Is 35d3-9-6-1; steel is chrome plated; part name is known as a telescopic cylinder or a 2 stage double acting telescopic cylinder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
