Body Material:

Steel

Inside Diameter:

108.0 millimeters

End Application:

2420-66-148-7692, hmee (high mobility engineer excavator); 580m loader backhoe

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Bushing type

Mounting Type And Location:

Bore both ends

Product Name:

Cylinder assembly, dipper

Special Features:

Cylinder stroke is 686 mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
