Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-511-1508>

Body Material:

Steel

Bore Diameter:

6.500 inches

End Application:

Cylinder, luff

Compressed Length:

44.000 inches

Extended Length:

62.000 inches

Pressure Rating:

2200.0 pounds per square inch

Integral Valve Operation Method:

Hydraulic

Special Features:

Rod; 3.50; stroke; 18.00 in; column load fully extended; 51, 140 lbs; maximum dry wt; 300 lbs; mat; barrel; steel, rod; chrome plated
17/4 ph stainless; boot clamps; 316 stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
