Overall Length:

1.665 inches

End Application:

Linear electro-mechanical actuator for access door for b-2 aircraft

Teeth Quantity:

12

Gear Outside Diameter:

0.625 inches

Shaft Material:

Stainless steel

Gear Material:

Stainless steel

Gear Location On Shaft:

On end of shaft

Special Features:

Shaft type is shouldered; nha p/n is aa1495-1 (cage 12511); t.O. Is 16a1-25-2-3, figure 9-2, index 11; manufacturer's part name is gear, pinion, clutch hub

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A503n0
