Overall Length:

6.340 inches

Overall Height:

2.750 inches

Overall Width:

2.750 inches

Construction Type:

One piece

End Application:

Boom actuator assembly - p/n 8644600-10

Specific Use:

Part of actuator assembly used for loading missiles onto tactical aircraft

Housing Material:

Aluminum alloy

Special Features:

Nha p/n is 8644492 and is used on adu-537 a/e

Material Specification:

Qq-a-200/8 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A522y0
