Overall Length:

17.725 inches

End Application:

Boom actuator assembly

Operation Method:

Pneumatic cylinder

End Connection Type:

Flanged

Product Name:

Actuator weldment

Special Features:

Part of actuator assembly used to load missiles on to tactical aircraft

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A525x0
