Body Width:

1.120 inches

End Application:

B2 aircraft

Link Style:

Straight

Body Construction:

Solid

Product Name:

Link assembly lower

Special Features:

Item is link assembly; components are p/n daa3116a522-019 link 1 and p/n nas77a6-024p bushing, flanged 2; 5.125 inches center to center of eyeholes; next higher drawing number daa3116m473; drawing number daa3116a522 nomenclature is drive link assembly-outlet door

Material:

Aluminum alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
