Function For Which Designed:

General purpose

End Application:

Brake, multiple disc

Features Provided:

Flanged end

Vehicle Design Control Activity:

0bh4

Vehicle Identification Designator:

Buoy crane

Special Features:

Approximate weight 18kg (40 lb); operating temperature 132 degree celsius; operating pressure 207 bar; speed 4000rpm; fluid type mineral base hydraulic oil

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A515v0
