End Attachment Style:

Eye first end

Body Construction:

Tubular

Product Name:

Rod assembly, rudder control, fwd fus

Special Features:

C/o 4 pieces, 2 rods and 2 bearings; first rod is 26.31 in., second rod is 24.56 in., rods overlap 2.00 in. And attach to each other using a screw, nut, washer, and pin; on each end of rod assembly is a bearing, first bearing is p/n stske401aw04 and second bearing is p/n stske800h484

Material:

Aluminum alloy

Material Specification:

Ww-t-700 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0
