Overall Length:

3.375 inches

Body Diameter:

0.375 inches

Body Width:

0.375 inches

Body Thickness:

0.049 inches

End Application:

Navy codes I1agagx and I5ahskx

Link Style:

Straight

Body Construction:

Tubular

Product Name:

Rod, connecting, crew seat, airborne equip

Special Features:

Alum tubing w/slot at each end, drilled hole each end at 90 degrees to the slot (refer to drawing for detail)

Material:

Aluminum alloy

Material Specification:

Ww-t-785 2024-t3 tubing federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A524I0
