Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-564-3039>

End Application:

A400m (military air transport aircraft)

Design Characteristics:

Double acting single cylinder

Product Name:

Ram assembly

Special Features:

Used during repair/maintenance of acoc actuator part number 906400-01; part of fire protection equipment aboard aircraft

Supplementary Features:

Meggitt safety system component maintenance manual 75-20-01

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
