**Body Material:**

Steel, corrosion resisting, ams 5643

**End Application:**

M51

**Straight Bore Inside Diameter:**

100.0 millimeters

**Integral Valve Operation Method:**

Pneumatic

**Design Characteristics:**

Double acting single cylinder

**Product Name:**

Air cylinder

**Special Features:**

Standard cylinder body profile; die cast end caps; fastener type standard end cover screws; rod wiper style standard scraper; double acting; chrome plated carbon steel piston rod material

**Supplementary Features:**

Stroke 0100; no sensor included

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A34200
