Body Material:

Steel, corrosion resisting, ams 5643

End Application:

M51

Straight Bore Inside Diameter:

100.0 millimeters

Integral Valve Operation Method:

Pneumatic

Design Characteristics:

Double acting single cylinder

Product Name:

Air cylinder

Special Features:

Standard cylinder body profile; die cast end caps; fastener type standard end cover screws; rod wiper style standard scraper; double acting; chrome plated carbon steel piston rod material

Supplementary Features:

Stroke 0100; no sensor included

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
