Overall Length:

2.125 inches

Body Width:

0.625 inches

End Application:

3040-01-594-7801

Body Construction:

Solid

End Attachment Length:

0.750 inches first end

End Attachment Width:

0.500 inches first end

Product Name:

Link

Special Features:

Material: alloy steel uns g43400; surface treatment: apply protective coating in accordance with mil-dtl-16232, type m, class 1. Finish coat all surfaces with .0002-.0005 thick solid film lubricant in accordance with mil-prf-46010. Magnetic particle inspect entire item in accordance with mil-std-1907, grade a. Heat treat to 30-35 rockwell-c in accordance with sae ams-h-6875, class a;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A524I0

Mil-std (military Standard):

Mil-dtl-16232 spec.
