Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at <https://aerobasegroup.com/nsn/3040-01-595-5783>

Body Outside Diameter:

1.750 inches

End Application:

A/c and refrigeration

Compressed Length:

24.660 inches

Extended Length:

31.660 inches

Features Provided:

Bleeder valves

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting single cylinder

First Piston Rod End Style:

Bearing type largest working end

Special Features:

Shaft diameter is 0.630 in (nom)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A34200
