Overall Diameter:

Between 4.000 inches and 6.000 inches

End Application:

Paving machine, bituminous material

Compressed Length:

37.000 inches

Integral Valve Operation Method:

Hydraulic

Design Characteristics:

Double acting twin cylinder

Product Name:

Cylinder, hydraulic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A34200
