Linear Actuating Cylinder Assembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/3040-01-622-7848

## Body Material:

Aluminum alloy
Overall Width:
5.0 inches

Bore Diameter:
3.75 inches

Body Outside Diameter:
5.0 inches

Compressed Length:
12.97 inches

## Extended Length:

19.22 inches

Integral Valve Operation Method:
Hydraulic

## Design Characteristics:

Double acting single cylinder

## Product Name:

Double acting, hydraulic-return cylinder
Special Features:
Heavy duty load cap; urethane rod wiper and seal with back-up; built-in safety felief valve; aluminum bronze overlay bearings for extra-heavy wear; chrome plated piston rod; t seal with back-ups; o ring with back-up; 6.25 inch stroke;

## Shelf Life:

N/a
Unit Of Measure:

## Demilitarization:

No
Fiig:
A34200
