Overall Length:

19.190 inches

Body Width:

1.500 inches

Body Thickness:

0.380 inches

End Application:

Door, defrag, qawt, 26x66

Link Style:

Offset

Body Construction:

Solid

Product Name:

Connect rod, corner

Special Features:

One 0.9355 in (min) and 0.9365 in (max) through holes in each end

Material:

Stainless steel

Material Specification:

Astm-a240, ty-316, cond-hr, anld and pkld assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A52410
