Overall Width:

Between 0.2352 inches and 0.2362 inches

Bore Diameter:

Between 0.2360 inches and 0.2362 inches

Overall Outside Diameter:

Between 0.7478 inches and 0.7480 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Molded

Load Direction:

Radial

Bore Shape:

Straight

Internal Clearance:

0.0006 inches radial and 0.0016 inches radial

Standard Tolerance Designation:

Abec no.5

Material:

Steel outer ring

Style Designator:

Shouldered inner ring, separable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
