Duplex Ball Bearing - Page 1 of 1

Overall Width: 30.0 millimeters

View Online at https://aerobasegroup.com/nsn/3110-00-052-9135

Bore Diameter:
40.0 millimeters
Overall Outside Diameter:
68.0 millimeters
Surface Finish:
Ground
Retainer Fabrication Method:
Machined
Load Direction:
Angular
Internal Fit-up Designation:
Standard
Standard Tolerance Designation:
Abec no.3
Bearing Preload Rating:
40.0 pounds
Special Features:
Bearings stabilized for operationfrom m 65 to p 300 degrees f, inner and outer races flush within 0.0005 in. When preloaded, bearings
marked w/same serial no.
Material:
Steel comp e52100 outer ring
Material Specification:
Fed-std-66 federal standard single material response outer ring
Style Designator:
Counterbored outer rings, non-separable, face to face mounting
Test Data Document:
38443-aqcp-2 specification (includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format;
excludes commercial catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental
and performance requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-aqcp-9a specification
(includes engineering type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial
catalogs, industry directories, and similar trade publications, reflecting general type data on certain environmental and performance
requirements and test conditions that are shown as "typical", "average", "", etc.). And 38443-ais-84a specification (includes engineering
type bulletins, brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry
directories, and similar trade publications, reflecting general type data on certain environmental and performance requirements and test
conditions that are shown as "typical", "average", "", etc.). And 21335-aps-33a specification (includes engineering type bulletins,
brochures, etc., that reflect specification type data in specification format; excludes commercial catalogs, industry directories, and similar
trade publications, reflecting general type data on certain environmental and performance requirements and test conditions that are shown
as "typical", "average", "", etc.). And 21335-aps-36a specification (includes engineering type bulletins, brochures, etc., that reflect
specification type data in specification format; excludes commercial catalogs, industry directories, and similar trade publications, reflecting
general type data on certain environmental and performance requirements and test conditions that are shown as "typical", "average", "",
etc.).
