Overall Width:

Between 0.7037 inches and 0.7087 inches

Bore Diameter:

Between 1.5746 inches and 1.5748 inches

Overall Outside Diameter:

Between 3.1493 inches and 3.1496 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Machined

Bore Shape:

Straight

Locating Feature:

Two direction

Internal Clearance:

0.0008 inches radial and 0.0017 inches radial

Standard Tolerance Designation:

Rbec no.5

Special Features:

Silver plated retainer, one lip of inner ring is separable

Material:

Steel comp e52100 roller

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A044a0
