Overall Width:

Between 2.5500 inches and 2.5600 inches

Bore Diameter:

Between 4.9210 inches and 4.9213 inches

Overall Outside Diameter:

Between 7.4799 inches and 7.4803 inches

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Load Direction:

Radial

Internal Clearance:

0.0046 inches radial and 0.0061 inches radial

Standard Tolerance Designation:

Abec no.7

Material:

Steel outer ring

Material Specification:

Pwa 725, united aircraft corporation mfr ref single material response outer ring

Style Designator:

Non-loading groove, non-separable, tandem mounting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A044a0
