**Overall Width:**

Between 2.5500 inches and 2.5600 inches

**Bore Diameter:**

Between 4.9210 inches and 4.9213 inches

**Overall Outside Diameter:**

Between 7.4799 inches and 7.4803 inches

**Surface Finish:**

Ground

**Retainer Fabrication Method:**

Pressed

**Load Direction:**

Radial

**Internal Clearance:**

0.0046 inches radial and 0.0061 inches radial

**Standard Tolerance Designation:**

Abec no.7

**Material:**

Steel outer ring

**Material Specification:**

Pwa 725, united aircraft corporation mfr ref single material response outer ring

**Style Designator:**

Non-loading groove, non-separable, tandem mounting

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A044a0
