Rolling Element Diameter:

1.5000 inches

Standard Tolerance Designation:

Afbma standard tolerance for balls, grade 200

Material:

Copper alloy

Style Designator:

Ball

Specification Or Standard:

B composition and 200 grade

Departure From Cited Document:

As modified by rolling element diameter

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
