Overall Width:

Between 0.4670 inches and 0.4720 inches

Bore Diameter:

Between 0.5903 inches and 0.5906 inches

Overall Outside Diameter:

Between 1.5870 inches and 1.5890 inches

Lubrication Material:

Grease

Outer Ring Width:

0.4720 inches

Inner Ring Width:

11.00 millimeters

Surface Finish:

Ground

Retainer Fabrication Method:

Pressed

Shield Quantity:

2

Load Direction:

Radial

Bore Shape:

Straight

Internal Fit-up Designation:

Tight

Special Features:

Outer ring od corners to have 0.245 in. Radius on both sides

Lubrication Material:

Grease

Lubrication Material Specification:

Alvania 3, fscm 54527 mfr ref single material response

Material:

Steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
