Rolling Element Diameter:

0.5625 inches

Standard Tolerance Designation:

Afbma standard tolerance for balls, grade 100

Special Features:

1.2 microinch surface finish

Material:

Steel comp 440a or steel comp 440b or steel comp 440c

Material Specification:

Aisi assn standard all material responses

Style Designator:

Ball

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A044a0
